

MADHVI LASHKAREE

Information Security Analyst | SOC Analyst

madhvisadhu83@gmail.com | +1-905-424-8182 | Markham, Ontario | [linkedin.com/in/madhvisadhu](https://www.linkedin.com/in/madhvisadhu)

Summary

Information Security Analyst with hands-on, SOC-relevant experience in SIEM log analysis (Splunk, Wazuh), network security fundamentals (TCP/IP, firewalls, IDS/IPS). Skilled in threat detection and threat intelligence research using the MITRE ATT&CK framework, with exposure to malware behavior analysis through adversary emulation (Atomic Red Team), and working knowledge of PowerShell and Python scripting skills for automation scripting. Proven analytical and troubleshooting ability under pressure, backed by strong incident documentation and written/verbal communication skills. Currently pursuing CompTIA Security+ certification. Eager to bring hands-on triage, log analysis, threat-hunting collaboration, and detection-engineering experience to a 24/7 Security Operations Center / Information Security Analyst role.

Skills

SIEM & Log Analysis: Splunk, Wazuh, Zabbix, Log Analysis, Security Alert Monitoring & Triage

Threat Detection & Detection Engineering: MITRE ATT&CK Framework, Threat Intelligence Research, Atomic Red Team, Custom IDS Rule Writing using Snort, IDS/IPS, Detection Playbooks

Network Security Fundamentals: TCP/IP, DNS, DHCP, VLANs, Subnetting, Firewalls, pfSense, Wireshark, Packet Analysis

Vulnerability Management & Penetration Testing: Nessus, Nmap, Hydra, Netcat

Scripting & Automation: PowerShell, Python

Digital Forensics: Autopsy, The Sleuth Kit, WinHex, Belkasoft Live RAM Capturer, Disk Imaging, dd, Data Carving, MD5 Evidence Hashing, NTFS/MFT Timeline Analysis

System Administration: Windows Server 2016/2019, Active Directory, Group Policy, Ubuntu/Linux Server Administration & Hardening, SSH Access Control, VMware Workstation

IT Support & ITSM: Help Desk Operations, Incident Management, Ticket Management, Microsoft 365 Administration, MFA Configuration, Playbook/SOP Development, ITIL Principles

Communication & Collaboration: Customer obsession, Resolving issues with professionalism & empathy, Problem-solving skills, Cross-functional liaison, Stakeholder communication, Teamwork under pressure

Work Experience

IT Support Analyst *Taha College | Scarborough, ON*

Aug 2025 - Present

- Support a multi-campus education environment by triaging, prioritizing, and resolving Tier 1/2 incidents under time pressure involving desktops, laptops, mobile devices, printers, Microsoft 365 applications, and LMS platforms.
- Manage Active Directory administration by creating user accounts, updating security groups, resetting passwords, assigning permissions, and supporting onboarding/offboarding activities according to access control policies.
- Administer Microsoft 365 services, including user setup, license assignment, email access troubleshooting, MFA configuration, and account security settings through the Microsoft 365 Admin Portal.
- Install, configure, and maintain computer hardware, operating systems, software, and peripherals while providing in-person, phone, and remote technical support for hardware, software, OS, network, and connectivity issues.
- Create and maintain technical documentation, user guides, and troubleshooting procedures to improve support efficiency and knowledge sharing.

Education

Graduate Certificate in Cybersecurity | Durham College

May 2024 - Jul 2025
